LIBERTY
SPORT

PREMIUM SPORT LENSES

Liberty Sport Ultimate Sports Lens™ offers the best lens protection available. Combining the highest quality polycarbonate lenses with premium sport tints and coatings that pass ANSI Z80.3 standards, they can be replicated in your Rx.

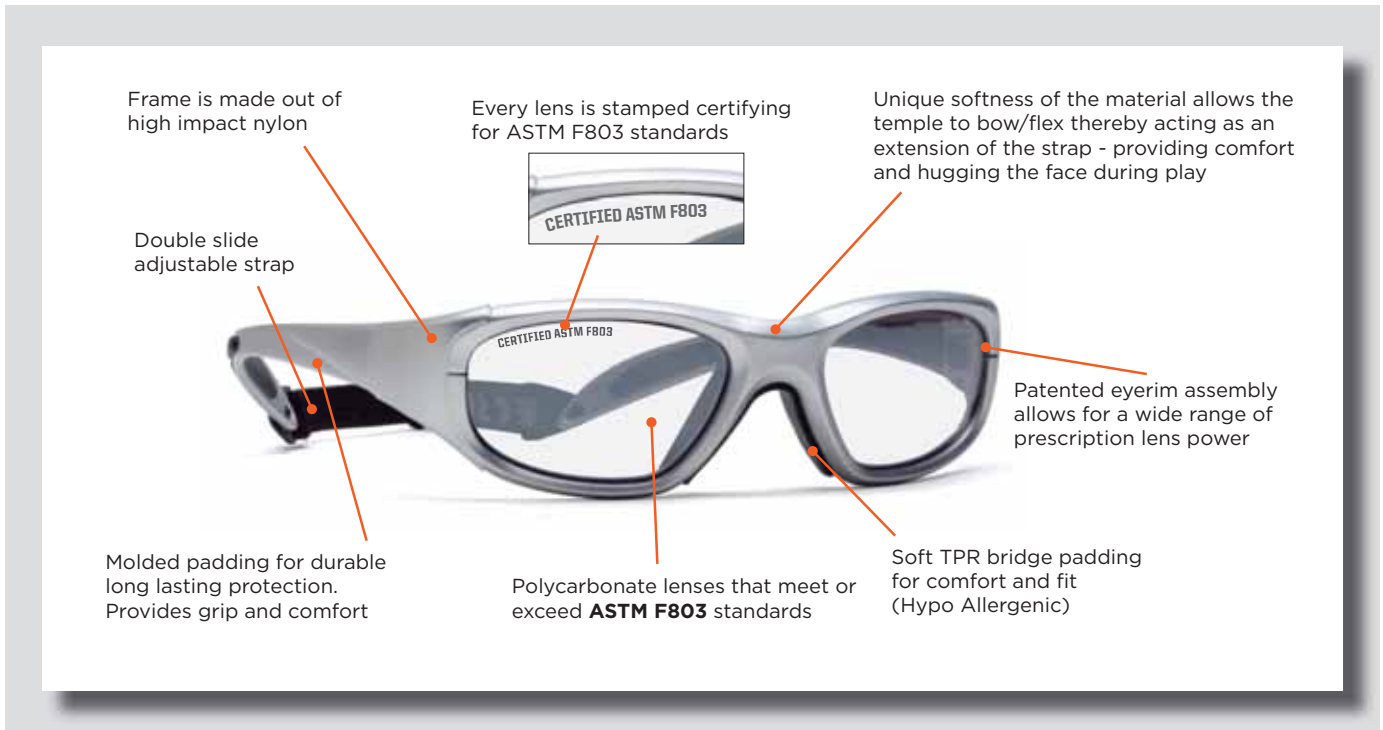

For details contact our lab at 800.444.5010 or visit www.libertysport.com.

INDIVIDUAL LENS LEGEND

 Ultimate Sport	Designed to provide maximum protection and wear resistance for indoor and outdoor sports.
 Ultimate Driver	Made for speed and motion activities. Tint is tailored for mid-range, contrast transmission to provide both sustained comfort and uncompromising visibility under the varying conditions encountered.
 Ultimate Play	Designed to highlight the ball against the background (sky or grass), providing outstanding object illumination. Unique balance of target and background brightness.
 Ultimate Outdoor	Designed to accommodate the visual needs of the outdoor enthusiast. Lens is extremely useful in forested and off-road environments when faced with variable light conditions, providing low light contrast and good bright light protection.
 Ultimate H2O	Designed for water activities, providing superior protection and visual comfort. Water and sky will appear bluer and truer, the white peaks of the water and the clouds will “sparkle” while vivid colors will “pop”.
 Ultimate Snow	Designed for perceiving changes in terrain while participating in a variety of winter activities.
 Ultimate Game	Designed to highlight the ball against the background (sky or grass), providing outstanding object illumination. Unique balance of target and background brightness.

BAYOU

HERE'S WHAT THEY'RE SAYING ABOUT SWITCH.

WIRED - Review of LYCAN

<http://www.wired.com/reviews/2012/08/sports-shades/>

"The Triguard polycarbonate lenses are just about scratch-proof. If you hit something hard enough to knock one of these things out, your sunglasses will be the least of your problems."

Men's Fitness - Review of TIOGA

<http://www.mensfitness.com/mattie-schuler/top-10-high-performance-sports-sunglasses?page=9>

"The Switch Tioga, like Switch's entire eyewear line, uses a magnetic system which makes a lens swap as quick as a lighting shift, and the magnetics are strong enough to hold the lens in place—even during rough sports like snowboarding and mountain biking. Frames and lenses are impact resistant, so don't be afraid to go full-speed. All eyewear includes one pair of polarized lenses and one pair of low-light rose amber lenses."

GearJunkie.com

Switchable Optics Put To The Test/Review of Axo

<http://gearjunkie.com/interchangeable-lens-sunglasses>

"The magnet-equipped Switch glasses, my favorite here for all-around use, provide superb, fast-changing lenses and casual styling. They have wonderfully crisp optics and an understated style that goes well with both casual clothing and technical gear."

TriEdge.net

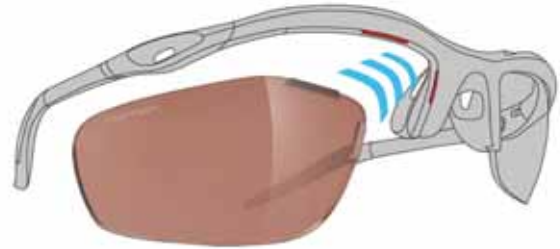

Gear Review of Lynx

<http://www.triedge.net/product-reviews/item/395-gear-review-switch-eyewear-new-for-2013-the-lynx>

"It's really hard to come up with something I didn't like about the Lynx. Overall, the Lynx was a fantastic choice for running and cycling, and even with all the high-tech design that goes into the lenses, the magnetic feature is still a big selling point to me."

Switch magnets make changing lenses quick and easy, yet hold lenses in place securely.

Switch uses high energy, rare earth magnets embedded in the lens and frame to enable users to swap lenses quickly and easily as light conditions and activities change. Switch lenses will literally jump into place when brought close to the frame and will stay put once the lenses have snapped into position. Switch magnetic interchange lenses have been engineered to stay in the frame when dropped from a height of six feet or subjected to the intense, repeated jarring of skiing, snowboarding, running or mountain biking.

Includes

1 Magnetic Interchange Frame

The World's First Magnetic Interchange Lens System, Explained

1 Pair of Low Light Rose Amber Lenses

1 Pair of Primary Lenses - Polarized or Non Polarized

1 LensPod™, 1 Hard Shell Case, 1 Microfiber Cleaning Cloth
